Riya Shukla

Phone: +91 7620794685 | **Email:** rs7136619@gmail.com | **Location:** Ghugus, Dist. Chandrapur, MH – 442505
LinkedIn: linkedin.com/in/Riya-Shukla | **GitHub:** github.com/Riya-coder01

Professional Summary

Detail-oriented and highly motivated **Computer Science & Engineering Graduate** (2026) with strong academic foundations in software engineering, core programming, and data-driven technologies. Hands-on experience building functional automation applications using **Python** and integrating advanced **Generative AI productivity workflows**. Quick to master new technical domains, analytical in problem-solving, and eager to contribute to collaborative development teams in software, data analysis, or AI enablement.

Technical Skills

Programming & Core CS: Python (Standard Library, OOP principles), Basic SQL, Data Structures & Algorithms

Data & UI Libraries: Pandas (Data Manipulation), Matplotlib / Seaborn (Data Visualization), Tkinter (GUI Design)

AI & Productivity Tools: Generative AI Prompting (ChatGPT, Claude AI, Microsoft Copilot, Midjourney)

Office & Workspace Suite: Microsoft Office Specialist (Advanced Excel, Word, PowerPoint), Canva (Visual Communication)

Professional Competencies: Object-Oriented Design, Computational Problem Solving, Team Collaboration, Technical Documentation

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering — Expected 2026
Shri Sai College of Engineering and Technology, Bhadrawati — *CGPA / Aggregate Ongoing*

Higher Secondary Certificate (HSC) – Science (Maharashtra State Board) — 2022
Percentage: 79.80%

Secondary School Certificate (SSC) (Maharashtra State Board) — 2020
Percentage: 84.20%

Professional Experience

Python Intern — Nov 2024 – Dec 2024
I Base Technology — Remote / Hybrid

- Developed and debugged modular Python scripts to optimize functional workflows and enhance logic execution efficiency.
- Worked closely on core software development principles, utilizing object-oriented paradigms to build highly reusable, structural classes.
- Conducted regular testing on script operations, resolving computational blockages and logical inconsistencies to improve software stability.
- Collaborated in peer code reviews, adhering to standard clean-coding standards and drafting technical execution reports.

Technical Projects

Automated Resume Builder Application | *Python, Tkinter, File I/O* — 2025

- Designed and engineered a desktop graphical user interface (GUI) application in Python that dynamically formats and outputs industry-standard resumes.
- Implemented robust input parsing and custom structural templates to ensure accurate PDF visual layouts, eliminating alignment issues.
- Integrated error handling to validate user inputs, preventing runtime exceptions and maximizing document creation reliability.

Data Processing and Analytics Toolkit | *Python, Pandas, CSV File Parsing* — 2025

- Developed a modular data analytics tool to programmatically import, filter, and clean tabular CSV datasets using the Pandas library.
- Created visual data reports using plotting modules to represent structural KPI analytics, converting raw input records into actionable graphs.

- Streamlined data processing operations by substituting manual Excel formatting with highly efficient, automated custom scripts.

Certifications & Other Credentials

- **MSCIT** (Maharashtra State Certificate in Information Technology) – *Passed with Honors, 79%*
- **Domestic Data Entry Operator** – *National Skill Development Corporation (NSDC) Certification*
- **Microsoft Office Suite Specialist** – *Comprehensive validation in Advanced Excel, Word, and PowerPoint automation*
